

### IMCL Conference

Approximately 150 students attended the IMCL Conference held at the Porto Palace Hotel in Thessaloniki. The design process of the serious game, which is being implemented during our project to support the personal development of young athletes, and its alpha version, was presented in the special session “Digital Technologies for Health and Sports” at the International Conference on Interactive Mobile Communication, Technologies and Learning 2023 (IMCL2023) 9/10 November 2023 organized by Aristotle University of Thessaloniki (AUTH).

### II Multiplier Sport Event in Thessaloniki - AUTH

On March 3rd, the II MSE took place at the University of Thessaloniki, organized by the lead partner of the GOAL4PDM project, with nearly 100 attendees including students and faculty from sports sciences, coaches, and former players. This meeting provided everyone present with an in-depth understanding of the project's results achieved so far.

### Serious Game: Now On!

Athlete's Odyssey is a game series designed to provide an engaging and educational experience for young athletes. Athletes can gain insights into the responsibilities of a

Professional Development Manager, increase awareness of dual career pathways, and develop essential personal skills such as time management.
